CUSTOMIZED BIBLES

We are thrilled beyond measure to announce that we received final permission to print customized Bibles (OT & NT) with a 100-page study material prepared for the needs of the new Christians, e.g., - *Christian life, Transformation, Discipleship, idolatry, a theology of persecution*.

A few hundred Christian workers currently follow up on thousands of new Christians. They also study with many contacts made through different outreach efforts.

With chronic deficit in human capital and with increasing contacts and converts, follow up is practically impossible.

These new Bibles will substantially help new Christians in their new life with Jesus, especially during the early days of their Christian life. The goal is to provide a Bible to every new Christian for their personal study.

The need is high and exponential: -

1. **Current backlog is over 16,000 Bibles**.
2. And at the current rate of the influx of new converts, **an estimated 7,000 Bibles per year will be needed** to help nurture and nourish new Christians.

Each Bible costs $7 & that includes study guide, transportation & processing fees. I invite you to be a part of this venture to nurture new Christians as they transform into the likeness of Jesus.
