

Falling in Love with Jesus: Studies in LukeRitchie Pickens | Alan Bradshaw | Josh Allen
Main Auditorium

This study of Luke's Gospel is designed to help us get acquainted with Jesus on a personal level. It focuses on each of us developing an intimate relationship with the One who loves us best. We will draw close to Jesus by traveling with him as he teaches, listening to the message he brings, and learning his heart through the way he relates to people. Two thousand years after Jesus walked the roads of Galilee, we sometimes find it difficult to feel personally involved with who he is. Our desire is that this study will help us overcome the barrier of time and space and discover the blessing of an abiding relationship with Jesus. As we witness the life of Jesus together, may we find ourselves loving him more deeply than ever before.

Circle of SistersSusan Hale | Dona Howell
Room 507

Circle of Sisters will be studying *Marks of a Disciple: Six Measurements for Growth* by Dean Inserra. Every Christian—regardless of age, demographic, or background—is designed by God to grow in faith. But many of us don't know what growth looks like. How do we even know we're growing? This study examines six measurements to help us see whether or not we're developing spiritually. This is not a checklist or a punch card, but rather a group of traits distilled from Scripture that should be evident in the life of a follower of Jesus. As we pursue these markers, our faith can flourish the way God intended. All ladies are invited to this class.
